

SUMMARY

SENIOR INFORMATION TECHNOLOGY PROFESSIONAL with extensive experience in the global pharmaceutical industry. Created strategy and delivered large, complex, critical manufacturing and sales systems and processes. Strong leader with expertise in product/platform management, project management, consensus building, and applying appropriate technologies to deliver measurable business value. Certified Project Management Professional through Project Management Institute. Competencies include:

- Program/Project Management
- IT Operations (ITIL)
- IT Strategy development
- Sales & Marketing (CRM, master data)
- Transitioning to Off-shore Sourcing
- Regulated Environments (GxP)
- Internet Development & Marketing
- Manufacturing Analytics (PAT, PI)
- Manufacturing execution systems (MES)
- Technology startup

PROFESSIONAL EXPERIENCE

LIVESARCHIVED.COM PART OF MEMORIA ME LLC, Collegeville, PA

2016-present

FOUNDER, INTERNET ARCHIVE FOR PEOPLE

Concept, market research, business model, minimum viable product (MVP) Apr-2017, marketing and sales. Lead technical architecture, project implementation, partner integration, scope adjustments based on user feedback market analytics. Product is the only easy solution for consumers to store multiple types of documents online forever. Partnership is the non-profit Internet Archive (archive.org) to preserve digital assets forever using the same service university (Harvard etc.) and museum (Smithsonian) archives use.

MERCK & Co., West Point, PA

2012-2016

Assoc. Director –Digital Shop Floor Manufacturing Data (2014 – 2016)

Oversaw and deployed standard platform for shop floor and built information strategy for manufacturing globally. Includes PI (Process Information), PAT (process analytical technology), and product serialization on shop floor. Managed six employees and four strategic suppliers who provided 20+ resources, including transition leader for Prague Czech Republic manufacturing shop floor technologies to complete 50+ projects annually, funded by IT and Manufacturing.

- Established platform for manufacturing, research, and utilities real-time data collection and analytics and deployed at all global key sites by 2016, resulted in lowered support costs and increased uptime.
- Developed analytics and data investment strategy, showing returns leading to financial expansion while overall portfolio declined with ROI over 20% in reducing cycle time and discard reduction.
- Built IT ownership of line management (serialization) for packaging for Systech and Antares. Brought installation and version consistency, reduced packaging line downtime and quality variation.

Assoc. Director, Program Manager – MES Manufacturing Execution Systems Center of Excellence (2012 – 2014)

Managed \$45M, 6 year program for 15+ sites for MES program utilizing Werum tool; program included new site deployment and core functionality update that allowed similar manufacturing sites to use same processes with lower MES operating cost (>\$10M).

- Implemented framework (cookbook) approach to build consistency and efficiency in system deployment, reduced operational support costs (~2FTE) and increased deployment rate (1 site/year to 4 sites/year).
- Built strategic supplier base to allow multi-site deployment without increasing employee headcount
- Mentored team in the areas of ITIL, IT technologies and best development practices.

Manager – Manufacturing IT OSI PI and Siemens SIPAT Delivery (2009 – 2012)

Provided delivery and support of all manufacturing intelligence systems globally. Managed six employees and 10+ contracted resources to deliver OSI PI systems and SIPAT at 15+ sites.

- Implemented global partner to execute most project work, shifting bulk of work from local automation integrators and Merck employees, reducing site's need expertise and resources (~3 FTE).
- Shifted maintenance and operations from employees to divisionally preferred offshore supplier without disruption by designing standard support model for supplier to work towards and tracking mechanism to show progress.

- Shift to strategic suppliers allowed Merck to focus on standardizing platforms. Created vision of single platform supported in common way.

Manager – Sales & Marketing IT PMO HH Business Solutions Delivery (2009 – 2010)

Managed 12 employees and contracted program/project managers who ran major programs within IT sales and marketing. Brought consistency of practices through tools standardization and sharing of best practices.

- Enhanced consistency to program management and obtained merger cost savings
- Merck merger with Schering-Plough had targets for cost savings. Created a methodology and tracking mechanism to force organization to achieve savings goal. Model included all types of savings (labor, software costs, system elimination, and contract efficiencies) and governance model to get savings realized from different areas.

Manager – Customer Master & Field Activity HH Business Solutions Delivery (2005 – 2009)

Managed 18 direct employees (including 4 PMs) and ~25 outsourced, contracted and internal employees as well as \$9M Enterprise project to build 360 view of customers

- Developed company-wide authoritative GxP customer repository, allowing measurement of effectiveness of investments across all types of promotional channels.

Manager - Field Data & Mobile Database US Human Health I.S. (2003 – 2005)

Led \$7M IT Complex Project – all of the following were instantiated and overseen;

- Managed major sales IT project using a life-cycle methodology, including concept, requirements specification, design, construction, installation, and operational phases.

Manager - Field Technology Services US Human Health I.S. (2002-2003)

Led organization that included 10 employees and 70 outsource resources, providing computer support (Helpdesk, hardware, software, file transfer) for 8500 field users in pharmaceutical, vaccine, and Puerto Rico divisions.

- Included both operational areas and development groups

Project Manager – eBusiness Solutions and Strategies US Human Health I.S. (2000-2002)

Created and maintained 3 strategic health internet portals for physicians and consumers (MerckMedicus.com, MerckSource.com, MerckServices.com).

EARLY CAREER EXPERIENCE

Project Manager – Field Data Distribution Services US Human Health I.S.

Led field data group in distributing electronic data and applications to 6300 remote users.

Project Manager – Field Technology Services US Human Health I.S.

Designed and organized Vector systems development process - became standard computer software quality process for USHH systems development.

Senior Systems Analyst – Procurement Manufacturing I.S.

Responsible for procurement and computer department desktops, Novell, LanManager systems, LAN and network gateways to the Wang VS.

Systems Analyst – Field Engineering Corporate I.S.

Maintained and upgraded various computer systems including personal systems, robotics systems, and research Gandalf network controller.

EDUCATION

Master of Engineering, Engineering Science, Pennsylvania State University

Paper topic: Distributing Artificial Neural Network Training Over Local Area Networks

Bachelor of Science, Electrical Engineering, Grove City College

PROFESSIONAL DEVELOPMENT

PMP (Project Management Professional) Certified Member ID: 612305

ADDENDUM**AWARDS & PATENT ACTIVITY**

Won 2015 Manufacturing Innovation Team Collaboration award

3 sales and marketing Divisional VP Awards

11 Awards of Excellence from various areas

Team nominated for IS team of the Year award

Published Patent Applications

20050108216 Computer assisted ... conducting searches in healthcare provider medical information portals

20040078225 Computer ... managing and/or providing continuing healthcare education status and activities

20040078224 Computer assisted ... for searching and producing source-specific sets of search results and a site search summary box

20040078211 Computer assisted ... managing and/or providing a medical information portal for healthcare providers

20030222900 Computer ... selecting, storing, and retrieving slides and slidekits, including to a personal folder, for healthcare providers

20030217291 Method and system for real-time secure transfer of personal information between websites

20030217159 Apparatus and method for sharing session information

Other Specific Capabilities

Systems Life-Cycle (waterfall, RAD, OO, Agile-SCRUM, Agile-Kanban, FDA GMP and GLP)

Microsoft Project / Profecta.io and financial management tools (SAP, Quickbooks)

Business Analysis (scope management, requirements gathering)

Coaching and guiding teams with diverse skill sets, nationalities, and backgrounds

Integration technologies (EAI, ETL)

Programming Languages: JavaScript including NodeJS, Java, Python, C, C++, SQL

Applications developed: web database applications, system utilities, communication systems, distributed processing systems

Amazon Web Services (EC2, S3), Windows Server, UNIX, Linux, TCP/IP and Internet applications (IIS, Apache, Nginx)

Document and content management systems

Certificates for Werum MES & OSI PI

Y-Combinator Startup School (class of 2017) - startupschool.org

Application frameworks - Angular, Jenkins, MongoDB, Docker
